

HEAT-TREATED PINE I-CLIPS PATIO

THERMO TREATED PATIO BOARDS 21X119 MM

The thermo pine deck boards are outstanding when you wish long durability and unique stability. It is the very heat process that provides patio boards these unique properties. The deck boards have a beautiful brown glow like exotic woods. There is minimal maintenance on the patio, and there is no need for any chemical treatment – only ordinary cleaning. The curved profile of the board keeps the water naturally away from the surface. The tensile strength of the finished patio is unique and meets the requirements of DTU 51.4

i-clips thermo pine belongs to the Scandinavian spruce-family: *Pinus sylvestris*

**10
YEAR
WARRANTY**

For private use, against fungal attack and manufacturing defect.

i-Clips is easy to calculate that come in packs of 1 m² (4 pieces patio boards per. package equivalent to 1 m²)

PRODUCT DATA

PRODUCT NAME	Heat-treated pine i-clips patio
MATERIAL	Thermo Pine
COLOR	Pine
PRODUCT-NO.	960
DIMENSION	200 cm
THICKNESS (TREADS)	21 mm
WIDTH (TREADS)	119 mm
